

## PUT-N-TAKE CLOSED!

Due to COVID-19 we have closed the Put-N-Take. It will remain closed until further notice. We ask that you please keep your items intended for drop off at home with you.

We have also closed our washroom to public access.

At this time all of our recycling streams, Eco Centre, Depots and Transfer Stations remain open and are available for use. However, we ask that you please consider storing as much of your recyclable materials as possible at home with you to reduce any potential exposure. We ask that any recyclable material being dropped off here, be thoroughly cleaned and free of any contamination.

The above measures taken are necessary to help keep our visiting public and our staff as safe as possible during this difficult time. We appreciate your support and understanding.

Dropping off items anywhere on site that are meant for the Put-N-Take, is considered illegal dumping and is a finable offence.

Smile, our cameras are watching when you visit the Eco Centre! 😊
